NEWSCBC

Goodbye Congestion, Hello Clarity.

Visibly transform clogged and congested pores with naturally potent charcoal and black seed.

These powerful ingredients zero in on pore congestion to draw out impurities like a magnet! Featuring fresh and earthy scents, these three new formulas work in harmony to address excess sebum, dirt and debris that clog pores to leave skin visibly clarified — both in-spa and at home.

Charcoal & Black Seed Clay Masque

THE DECONGESTOR

Give your skin the detox it deserves with this velvety masque, designed to whisk away impurities while absorbing excess oil. Complete with a clean, earthy scent, the Charcoal & Black Seed Clay Masque minimizes large pores and leaves skin looking even and refreshed without drying it out.

Charcoal & Black Seed Clarifying Oil

THE BALANCER

Did you know a face oil can help manage excess sebum? Sebum protects the skin but can also lead to congestion and shine. This powerful, fast-absorbing formula keeps oily skin in check while maintaining pore clarity and reducing the look of occasional redness. Glide on this light, citrus-scented oil to balance and hydrate skin.

Boost this collection's balancing and pore-cleansing effects with another Éminence favorite! The Charcoal Exfoliating Gel Cleanser targets impurities and gently buffs the skin to invigorate your complexion.

Target Dull Skin & Congested Pores with a Professional Approach

Professionals know how to get your skin looking its best! Our new **professional-only** Desincrustation Gel is a unique solution designed to make extractions* (aka deep pore cleansing that removes impurities) a breeze. Trust your skin in the hands of a qualified practitioner to discover treatments that target large, congested pores.

Why Pores Love Charcoal & Black Seed

CHARCOAL

Charcoal is renowned for its ability to detoxify and balance the skin naturally. We use both luxurious binchotan and activated charcoal, known to capture and remove impurities, for dual-action purification.

BLACK SEED

This powerful little seed packs a punch! Rich in antioxidants and omega fatty acids, black seed (*nigella sativa*) works synergistically with charcoal to deeply cleanse the skin while visibly evening out dark spots and reducing clogging in pores.
